## ARMY FLYERS VISIT OK. CITY

### NO REPORT FROM WAR OF WORLD

Haig and Petain Give No Details of Operations Yesterday

At a late hour the ban on press dispatches from the Franco-Belgian front apparently had not been raised and the world was left to guess whether the interdiction is intended to conceal some military movement of prime importance or whether there is relatively inconsequential reason for it. The official statement affords no clue tonight. Field Marshal Haig's report of the morning, for instance, was of routine character which ordinarily excites no comment, merely announcing heavier artillery fire. The Berlin statement is similarly unimportant.

#### Italians Make Gain.

From the French front there was an absence of any interesting news except that violent artillery activity is reported east of the Meuse in the Verdun region. The official statement from Rome showed that General Cadorna is giving his infantry rein again. The surprise attack was carried out with complete success, giving the Italians a line rectified to their advantage between Selle di Doll and the northern slope of Mont San Gabriele, 224 prisoners and four machine guns being captured in the operation. The new line was maintained in the face of severe Austrian counter attacks.

The Italian air operations were again important, the airmen once more sweeping over the Austrian naval base at Pola where an arsenal and sub bases were bombed by the big squadron. Australian military depots in the Carso zone were also successfully attacked from the air.

#### British Losses For Sept.

How heavy the fighting was on the British front in Flanders and northern France during September, despite the absence of attacks on a large scale until the closing days of the month, is indicated by the figures on British casualties reported during the month, a total of 104,598, of which the number killed number 18,938. These figures compare with total casualties of 59,811 for August and 119,549 for September a year ago, the third month of the battle of the Somme.

#### Friday Night Raid Failed

Friday nights air raids over England were an abortive affair and costly for the Germans, resulting in negligible material damage and no casualties as far as reported. Their aim was to reach London but the alert and efficient work of the British anti-aircraft guns and air forces strong opposing barrier was not pierced. Two German machines were shot down near the coast.

### WOULD CONFIRM GENERAL, BUT KEEP HIM HOME

Washington, Sept. 29.—The Senate Military Committee today recommended confirmation of Col. Carl Reichmann as Brigadier General. Reichmann's confirmation was held up following filing of charges he made pro-German statements.

### American Soldier Given French Cross for Bravery

Paris, Sept. 29.—The first American soldier to win the War Cross with the Palm is John C. McClain of Dayton, Ohio, says the Paris Herald. On the night of Sept. 18 a German airplane flew over the village in which he was, and dropped several bombs. One fell within fifteen feet of a building around which some fifty villagers had gathered.

Notwithstanding the warning ex-

postulations of those near him, McClain dashed out into the road and discovering the bomb with the aid of a pocket electric lamp, picked it up and hurled it into the river.

The projectile exploded as it hit the water. It sent up a column of water and no one was hurt.

Private McClain, who is 24 years old, and married, has been in the army for four years. He saw service in Mexico.

### THIS I. W. W. WILL PICK HIS GROUND FOR NEXT SPEECH

Chicago, Sept. 29.—Walter Seigler, thought by the police to be an I. W. W., is alleged to have been making remarks in profane derogation of President Wilson when John Moran and Andre Anderson stopped to listen last night.

Moran is a middleweight and Anderson a heavyweight pugilist of some local renown. They divided the work. Moran hit Seigler once, which was enough, and Anderson then picked him up, folded him like an overcoat over an arm built like a old-fashioned piano leg, and carried him five blocks to a police station. Here the prisoner was revived and was booked.

### RECOVER 21 BODIES OF THE VICTIMS FROM FRISCO WRECK

Tulsa, Ok., Sept. 29.—Bodies of twenty-one persons killed in the wreck at Kellyville Friday afternoon were in the morgue at Bristow Saturday morning. Only eight of these had been identified. Fifteen of them were colored, either negro or Indian, and six were white. The six women were negroes. Most of the bodies and six were white. The six women were negroes. Throughout the morning there were calls from the scene of the tragedy for the ambulance, sometimes to bring into the undertakers dismembered portions of bodies that might be identified.

The identified dead are:

JOHN CROWNOVER, deputy sheriff of Creek county, Shamrock.

MR. HUDLEY, Hugo.

A. Tracy, of the Globe Clothing Company, Tulsa.

FRANK HUTCHISON, employe of the Pioneer Telephone Company, Tulsa.

D. M. WELCHER, Bristow.

TOM BIGDON, Dewey.

HARRY WHITNEY, colored, Sherman, Texas.

JESSIE LEE MUCKER, colored woman, Bristow.

### 6 KILLED WHILE CLEANING OUT STEEL FURNACE

Gary, Ind., Sept. 29.—An explosion in one of the furnaces of the Illinois Steel Company today is reported to have resulted in the death of six workmen.

Information has been refused at the plant, but it is understood the men were sent in to clean the furnace, the fires of which had been banked because of lack of fuel, resulting from the switchmen's strike. A gas valve is said to have broken, resulting in an explosion that killed the men instantly.

### JUDGE SAYS KAISER SHOULD DECORATE PEACE OFFICERS

Fort Smith, Ark., Sept. 29.—United States Judge Frank Youmans today declared Mayor J. H. Wright, Chief of Police James Ferenandez and Sheriff Claude Thompson deserved to be decorated with the Iron Cross of Germany by the kaiser.

Judge Youmans, in granting a permanent injunction against telephone strikers, referred to the alleged failure of the city and county authorities to preserve order and protect persons in their legal rights about the local exchange, and concluded:

"We have absolutely gone to war on the proposition of defense of legal rights. That principle is what we are endeavoring to sustain at this very moment. That explains why the boys are now rallying around the flag. That explains why the congress of the United States is spending billions of money—and in the city of Fort Smith we have the chief of police, the mayor and the sheriff of Sebastian county carrying out German doctrines on American soil. They deserve to be decorated with the Iron Cross at the hands of the German emperor."

### REPORTS OF DEATHS IN TROPICAL STORM ALONG GULF COAST

New Orleans, Sept. 29.—The first report of casualties due to the West Indies hurricane which yesterday swept the Gulf coast section of eastern Louisiana, Mississippi, Alabama and western Florida was received today when Houma, La., reported a schooner capsized in Sisler Lake, drowning nine persons. Advances from Dothan, Ala., told of a report received there from Crestview, Fla., that five persons had been killed there.

Wire communication had not been re-established to Pensacola early tonight and no word was received as to the damage done in that city by the storm. That the wireless plant at Pensacola was not demolished was evident when the naval radio station got responses to its calls.

Reports from Biloxi tonight stated that considerable anxiety is being shown there for the safety of the crews of four schooners and one pinnace, out in the Louisiana marshes at the time of the hurricane. Several hundred small schooners and oyster boats sail out of Biloxi regularly but the storm warnings reached them in time to enable their crews to take practically all of them into safe waters.

Sweden will send here for her subjects. Stockholm, Sept. 29.—The Foreign Office is preparing to send ships to America to bring back Swedes who do not desire to serve in the American military forces, the Tidende says. The Swedish government has asked Washington for exact information as to conscription of aliens.

### WANTED TO MERGE ALL WAR ANTIS

Tells of Efforts to Get Various Organizations Together

Arlene, Tex., Sept. 29.—Unsuccessful efforts to amalgamate the Farmers and Laborers Protective Association with the I. W. W., the Working Class Union and other labor organizations, were made, according to the testimony in federal court here today in the case of the 41 defendants, members of the Farmers and Laborers organization, charged with conspiracy to resist the army draft law.

W. A. Bergfeldt, a defendant on the stand this afternoon, testified that he and George B. Cathcart, another defendant, last May at a convention of the Farmers and Laborers Protective association at Cisco were chosen to confer with the I. W. W. and Working Class union regarding amalgamation. Bergfeldt said he and Cathcart joined the Working Class union at Dewar, Okla., but upon finding that the Oklahoma organization favored the use of "any measure to accomplish their aims against the draft law" he and Cathcart immediately withdrew from membership.

They afterward went to Tulsa and joined the I. W. W. but upon learning that the I. W. W. did not accept farmers they also gave up hope of merging with that organization. The cross examination of Bergfeldt will begin Monday.

### NEW LIBERTY LOAN THREE BILLIONS TO FIVE BILLIONS

Washington, Sept. 29.—Treasury officials tonight announced the apportionment of the second Liberty Loan bond issue, to be offered next week, among the various Federal Reserve districts of the country. Virtually two-thirds of the loan is expected to be taken in the New York, Boston, Cleveland and Chicago districts, with one-half apportioned to the first three named.

The apportionments indicate what each district is expected to do and may be entirely upset as in the case of the first Liberty Loan by actual subscriptions. In making the apportionments the officials used two bases of estimates—a minimum of three billions and an "expected amount" of five billions. Apparently in figuring the second issue the officials hope to realize a five billion dollar response.

The Dallas Federal Reserve district minimum amount is \$75,000,000 and the "expected amount" is \$125,000,000.

### TEXAS COTTON SEED CRUSHERS PROTEST RATES

Washington, Sept. 29.—The Texas Cottonseed Crushers' Association, in a complaint filed today with the Interstate Commerce Commission, charges that the current rates on cottonseed cake and meal between Texas points and leading Western destinations are unjust and unreasonable, giving undue prejudice in favor of Oklahoma shippers.

A readjustment of the schedules is asked.

### American Women Doctors Will Serve France in War

New York, Sept. 29.—The day of the woman army surgeon is dawning, in the opinion of Caroline Finley of New York, who will lead the first detachments of women doctors to go from America to the front.

"We are going over primarily to care for the women and children suffering from the war's illness and injuries," she said. "But in emergency we will be ready to reinforce the army surgeons in their work with the wounded. When the time comes, we will stand with the others in the hospitals behind the lines ready to do our part in dressing the wounds of the soldiers."

This unit of women surgeons and assistants is nearly 100 strong. The French government has accepted its services, as the United States was unable to do so. There isn't a man in it. Mechanics, chauffeurs, plumbers and electricians are women. The ranks of the women doctors include many specialists; also dentists, and the party has forty-one nurses.

Copenhagen, Sept. 29.—Germany has not announced her willingness to evacuate territories she now occupies, including Belgium, Chancellor Michaelis announced, Berlin dispatches say.

After a meeting of the main reichstag committee yesterday, Michaelis made this formal announcement:

"The statement that the Imperial Government has already communicated to a hostile government announcement of her willingness to evacuate occupied territory, thus abandoning the most valuable advantage for peace negotiations, is untrue."

"I declare that the Imperial Government's hands are free for eventual peace negotiations. This also refers to Belgium."

The disclaimer evidently refers to a story emanating early this week from Bern, announcing receipt of official dispatches in which Germany agreed to share in indemnifying Belgium and to evacuate occupied lands, under certain conditions.

According to Berlin advices, the Chancellor's speech yesterday made but slight impression on the Main Committee.

The members, however, received with distinct satisfaction Foreign Secretary Kuelmann's declaration of his foreign policy and particularly his statement that he would be able to carry it out only with the co-operation of the reichstag.

In the committee meeting Herr Hoske, a Socialist member, bitterly assailed former Premier Ribot of France and former Premier Asquith of England for their demands as to Alsace and Lorraine.

### ROOSEVELT REFEREES BOXING MATCHES AT NAVY TRAINING CAMP

Chicago, Sept. 29.—Colonel Theodore Roosevelt refereed two boxing matches between Jackies when he visited the Great Lakes naval training station on Thursday last, it became known today. The colonel had gone to the gymnasium simply as a spectator while a number of two-round bouts were being staged but as soon as he was recognized, his services as referee were commandeered, according to the story told by witnesses. A cook and a gunner's mate were announced as the principals in the first bout and when the two rounds were over the colonel promptly gave a decision in favor of the gunner.

Two more contestants were brought out and after boxing two rattling rounds, Col. Roosevelt declared the bout a draw.

More Wisconsin Troops at Waco. Waco, Tex., Sept. 29.—The Fourth Wisconsin Infantry of 47 officers and 1,842 men arrived this morning at Camp McArthur.

### SITUATION AT SAN FRANCISCO LITTLE BETTER

San Francisco, Sept. 29.—But a handful of men responded when the Union Iron Workers and other structural concerns had opened for business today, following official announcements last night that the strike of 30,000 iron workers and other mechanics in the San Francisco Bay region was at an end.

In defiance of an order of W. R. Burton, president of the Iron Trades Council, that all of the strikers return, James Enright, secretary of the boilermakers' union, said:

"Any boilermaker who returns to work will be discharged from the union."

An announcement from the office of the Iron Trades Council said that the failure of most of the men to return to work was due to the fact that the official notice to end the strike definitely was not sent in time.

### TAKE WISCONSIN SENATOR OUT, DEMAND MADE

Washington, Sept. 29.—A communication from the governor of Minnesota and the State Public Safety Commissioner, requesting the expulsion from the senate of Senator LaFollette of Wisconsin, was presented in the senate today by Senator Kellogg of Minnesota and referred by Vice President Marshall to the senate privileges and elections committee.

Four other communications, demanding the impeachment of Senator LaFollette, were received by Vice President Marshall and presented to the senate in the usual routine way. Senator Kellogg explained that he presented the resolution according to the usual practice of all senators of filing communications from responsible organizations and that there was no other significance in his action.

Senator Pomerene indicated that the privileges and elections committee would take no action, for the present at least. He said he could not decide until after conferring with other members and that a quorum of the committee could not be obtained probably during this session.

Buenos Aires, Sept. 29.—It is asserted by persons close to President Irigoyen that he will declare martial law throughout the republic as soon as the Congress adjourns at midnight Sunday. This is expected to put an end to the country-wide agitation favoring a rupture with Germany as well as stopping the general strike now in progress.

### 8 PLANES FLY FROM FORT SILL

Make Trip 95 Miles Successfully in Little Over One Hour

Oklahoma City, Sept. 29.—After making a practice flight from the Fort Sill aero school to Oklahoma City, seven of the big Curtiss planes left on their return trip of ninety-five miles late today, after spending more than five hours here. The eighth machine which was slightly damaged in making a landing near the capitol, remained here overnight. This aviator expects to leave tomorrow after making the necessary repairs.

The flight to Oklahoma City from Fort Sill was made by the first machine in one hour and sixteen minutes or flying at better than 75 miles an hour average time.

The planes traveled in a V-shape formation, the apex machine flying at an altitude of 1500 feet and the remainder at intervals of 500 yards each at an altitude 500 feet higher than the preceding plane. So far as known no incident attended the return flight.

### U. S. FLYERS "DROP IN" TO SEE STATE FAIR IN OKLAHOMA

Oklahoma City, Sept. 29.—Eight large war planes, carrying sixteen United States aviators swept noiselessly down upon Oklahoma City this morning from Fort Sill. Eleven planes started on the flight, one having been forced by engine trouble to alight immediately south of the city. Two others still are unaccounted for. The machines dropped into a field southeast of the state capitol one hour and sixteen minutes after starting from their flight from Fort Sill, ninety-five miles away.

The war planes circled, swooped and dipped as they passed over the state fair grounds, thrilling the crowds gathered for the last day of the exhibition.

Officers expect to start the return flight about 2 o'clock.

### FERGUSON WILL MOVE BACK TO TEMPLE, TEXAS

Austin, Texas, Sept. 29.—Former Governor James E. Ferguson said today that he and his family will leave the latter part of this week for Temple to make that place their home.

### MORE GERMAN PLANES FLY OVER LONDON AND DROP BOMBS

London, Sept. 29.—Hostile airplanes raided London again tonight. An official communication from the Home office on the latest raid says: "Hostile airplanes crossed the coasts of Kent and Essex coming in groups between 8 and 9 o'clock. There were several attacks on London and some bombs were dropped at various places between Kent and Essex. No report of casualties has yet been received."

## THE WEATHER East Texas—Sunday and Monday generally fair. FEDERAL LEAGUE STARS BIG AID FOR NEW YORK

New York, Sept. 27.—By a remote kind of figuring it might be deduced that the forthcoming world's grapple between the White Sox and Giants will be something of a test between stars of the old Federal League and those of the American League.

Four former members of the "outlaw" circuit will be in action against the White Sox, but not a Federal graces the roster the National Commission approved for the Sox.

Fred Anderson, Benny Kauff and Bill Rariden were three of the big guns in the old circuit. Jimmy Smith also did some ball playing when Jim Gilmore was in baseball, but didn't class with the other trio.

Since last spring this trio of ex-Feds has done as much as any other triangle to boost the Giants into a pennant. Anderson's work has been of the relief kind, but mighty efficient. Rariden has held the brunt of the catching and Kauff's hitting almost kicked the Giants into a pennant without further help, for it has been his consistency and nerve that won crucial contests.

Comparisons between Federal League players and those in the National and American Leagues used to be common, but now that the ex-Feds have done noble duty in the National they are booked to show in American League competition.

Truth in advertising is one reason why Henry P. Mayer Music House has twenty-seven years of continued success. Our \$200 piano is never \$350.

Prompt Pay, Fair Pay.  
Slow Pay, or X.  
How will YOU be RATED?

Sheriff Clarkson and his deputies made a raid on a negro house on Province street at 11 o'clock last night and arrested three men and two women. One of the women was charged with running a disorderly house and the others with vagrancy. Yesterday was the banner day of the season in cotton receipts. The plaza was covered on all sides with cotton wagons for several hours. The News was unable to get the exact receipts, but they were understood to be over 800 bales, while last Saturday they were 738. The price paid was from 23½ to 25 cents.

# CHIROPRACTIC

## FAMOUS IN PARIS

J. FRANK PRUETT, Chiropractor      JOSEPH E. PRUETT, Chiropractor

We know there are people in Paris, as well as elsewhere, who question, the efficacy of the Science of Chiropractic as a healing art, although it has stood the crucial test of the most severe criticism and investigation of the age. It has emerged from every fray, the stalwart victor of disease, and its banner floats from countless homes throughout the world as the ensign of health, hope and renewed happiness.

It is not our intention to foist upon the people of Paris and vicinity, an untried science, and attempt to exact from them their hard-earned money, without first demonstrating to them the unquestioned and unchallenged merit of our system of adjusting the cause of disease. This we have already done to a vast number of people, and they are still coming from every point of the compass. It is an interesting sight to see the large aggregation of sick and afflicted people who visit our offices daily, and to hear the many expressions of gratitude as they emanate from appreciative patients. Many there are who had all but despaired of ever securing relief, who have already been so greatly benefitted as to give assurance of their complete recovery. You probably already have heard favorable comments on our methods, but for some reason remain skeptical. Can you assign any good reason why this is so? Can you tell why you are skeptical? Most certainly you are not biased, because we have given you no excuse for being so. On the contrary we have extended to you an open invitation to call on us, test our methods, and get well without cost and without obligation. Could one offer a fairer or more liberal proposition? Let yourself answer the question. We cannot compel you to call on us. All we can do is to extend you an invitation, and assure you of a hearty welcome. The free demonstration is now at its height and will continue to Oct. 15th. Some of the best people in Paris and Lamar County are taking Chiropractic from us, and you will probably meet your friend or neighbor here, ask any of them if they are being benefitted, they will not tell you a false-hood.

### Card of Thanks

We wish to thank our many friends for their kindnesses and sympathy during the illness of our beloved mother, and for the beautiful flowers that covered the place where we laid her to rest. The songs, the comforting and appropriate words spoken by Bro. Wooten were all a benediction at the close of a life that was so dear. We also feel very grateful to Dr. Lewis and Miss Hill for the faithful care and attention given her. Again we thank you each and all.

Her children,

### Lost

A gold bracelet with five diamond sets, on the road from Glory to Jennings by way of Biardstown, Wednesday afternoon last. A suitable reward will be paid for its return to R. H. Young, Glory, Texas.

### To My Friends and the Public in General.

I am opening up a modern shoe repair shop at 17 North Wall street, one block north of Plaza. My machinery is en route from St. Louis and will be installed just as soon as it arrives, about the first of next week. Meanwhile I am prepared to do hand work, tack on soles, rubber heels, etc. I trust my old customers before the fire will remember me with a portion of their shoe repair work, as well as hoping to add many new ones to my list. I have secured the services of Mr. Sylvester Russell, the deaf and dumb man, who used to work for men and who is one of the best and swiftest workers in Paris or any other city. I use the best of materials and do the best of work at as reasonable prices as possible. Please give me a trial and be convinced.

Your long time friend,  
Willie Lewis.

# Paris Needs More Modern Homes

Paris with its many natural advantages and resources and superior railroad facilities is destined to be a city twice its present size. There is one great factor which will aid materially to increase the population, namely by building More Modern Homes.

For new Modern Homes will increase Real Estate values causing more activity in the market creating demand for Real Estate, which by the way is the basis for all wealth.

The News is backing the More Modern Homes Movement, knowing full well the benefits to be derived from the building of attractive up-to-date Homes. The illustrations published from week to week are made possible through the co-operation of the advertisers and the "Ye Planry" Building Service, designers of Beautiful Homes.

## Saving The Dollars

soon results in a fund with which to build a home. No man is really satisfied until he has a home of his own and when you have the saving habit you can soon make your balance big enough for the first payment on the building of a home.

Our Savings Department specializes in aiding small savers to get ahead. We always have time to talk about it and invite you to call on us and talk the matter over with us.

## If You Are Going to Build

Or repair, don't overlook the fact that we have everything in hardware to make it stable and attractive. A home should have the best, and as we carry only that kind of merchandise, we hope to see you in our store soon.

Be Prepared—Come and get your stove now, and be ready for any emergency.

## Home Furniture

need not be expensive, and it will not if you buy from us, but it should harmonize with the home and meet the need of the family.

Much of the furniture we sell is made by us and we guarantee its quality. We also sell floor coverings, curtains, draperies, and many other accessories necessary to the completion of the real home. Visitors always welcome.

## Ample Floor Space---Large Closets

For a home where large rooms, plenty of closet, and pantry space is chief consideration here is a design which especial attention has been paid to convenient arrangement.

Entering a reception hall 10x14 with colonnade opening into a 16x16 living room with sliding French doors into dining room. Immediately in rear of reception hall is a stair hall with the stairs both to the basement and second story, a hall connects kitchen with this stair hall thus the housewife may go directly to front door without passing through living room. The butler's pantry 5x12 feet between kitchen and dining room is provided with cupboards and drawers. Four large sleeping chambers each with a closet, linen closet in the upstairs hall which connects all bedrooms with bath.

This home makes its appeal to those wanting an inexpensive two-story home with ample floor space, there is positively no waste in its construction.

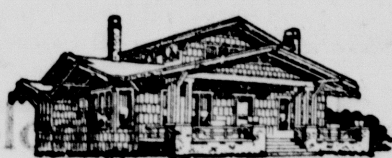

## Modern Homes Enhance Values

The difference in price in the ground value of "Progressive Hill" and "Mossback Row" is the difference in the appearance of the improvements thereon. The ground of "Progressive Hill" was worth no more than "Mossback Row" until two or three modern, cozy homes were built. Then it advanced in price.

Modern distinctive looking homes may be built without adding a dollar to the cost of construction. A famous landscape painter was asked how he mixed his paints—"With brains" was the direct reply.

No matter how modest a home is considered if a little discretion and discrimination is exercised in the planning and building of a home one dollar will look like two have been spent; just a matter of mixing brains with building.

One should not lose sight of the fact that the future enhancement of their property depends to a large extent upon the improvements. Is it not a wise idea then to modernize and standardize the class of homes so that everyone in the community will benefit by the building of them; knowing without a shadow of a doubt that modern homes enhance value; the News will endeavor to encourage in every way the building of more modern, attractive homes, in Paris. It's money in all our pockets.

**Local News.**

S. J. Duvall and associates are organizing a company to bore for oil on a four-acre tract of land owned by him north of the crate factory. The capital stock, it is understood, will be \$50,000.

A daughter was born to Mr. and Mrs. Dudley Biard at St. Joseph's Infirmary a few days ago. She is the first and only grandchild of Mr. and Mrs. Jas. W. Biard.

Grady Hudson has been appointed assistant ticket agent at the Texas & Pacific depot.

Manager C. H. Thompson of the compress stated yesterday that work had progressed to the extent that they expected to begin running it some time this week.

The two-year-old daughter of Mr. and Mrs. Will Cross of Clardy died Friday of whooping cough and pneumonia. The child was one of twins. The funeral was held at old Rockford.

Last June J. W. Sharp, a thrifty and industrious farmer who lives northeast of town, invested in five pigs about six weeks old for which he paid \$15. He has now received his original investment and has a dividend of \$75. He says the pigs were no expense to him, as they were fed on produce from his garden that would otherwise have gone to waste.

Eugene McCullough, Jr., who left here with the Paris Battery, has received two promotions since he has been in Camp Bowie. He was corporal when he left here, and was soon promoted to captain corporal. He is now battery clerk.

While the five-year-old son of W. H. Woodson of Pattonville was playing in the cotton patch with other little children last Thursday he fell and broke one of his legs in two places.

Mrs. Wills Jones, living between Howland and Broadway, has a fine apple orchard of seven hundred trees in full bearing, and people in automobiles from Cooper and other points for miles around come to the orchard to buy the apples at \$1 per bushel.

When the Paris Artillery boys left here for Camp Bowie the organization was known as Company F First Texas Field Artillery. In the new shakeup since they reached camp the company is now known as Battery E, 133d Regiment 61st Brigade Artillery 36th Division.

Ed Crowley, the Atlas farmer, had a bale of cotton on the market yesterday for which the best offer made on it was only thirty-five cents, and as he didn't want to haul it back home he sold it at that price.

Officer Billy Short arrested a man at the union depot yesterday at noon as the train came in from Dallas on a charge of being drunk. He had a tip that there would be a bunch of five drunks on the train Friday night, but the city marshal of a town below Paris caught them.

As an evidence of the prosperity among the farmers it is said that several negroes who live in the country have placed orders for automobiles within the past few days.

A daughter was born to Alex Baulk and wife at the home of the mother's parents, Mr. and Mrs. Tom Maxwell.

Mrs. B. B. Brashears has been quite sick the past few days, but is improving.

A. T. Chennault, the motorcycle policeman, has tendered his resignation, to take effect tomorrow and will go back to work for the Paris Livory & Transfer Company.

The crowded condition of the plaza yesterday caused a number of persons to remark on the necessity of the market square that is being prepared and will soon be ready.

A citizen of Paris remarked yesterday that he had just seen a sight that he had never seen before in his life. He saw a negro boy in knee breeches walk out of a bank with a bank book in his hand. He asked him if he had a bank account and had just been in the bank to make a deposit of his cotton-picking money.

A daughter was born to A. T. Chennault and wife on Ross avenue yesterday afternoon.

J. W. Colly, an industrious farmer southwest of town, has his corn crop gathered, the stalks cut and the land bedded for next year.

A daughter was born last week to A. L. Lane and wife at the home of the mother's parents, Mr. and Mrs. W. H. Ledford.

A farmer who was in town yesterday said that he didn't sleep well Friday night. He had sold some cotton and the cotton buyer paid him so much money for it that he felt he must have made a mistake.

Curtis Dunagan bought an automobile in Dallas and he and Horace Dodson brought it back last night.

Sheriff Wilson of Antlers captured a nalgated outlaw, Bill Tidwell, a few days ago, who is said to have robbed the bank at Crowder about two years ago. It is also claimed that there is a murder charge against him. When arrested he was living at Neshoba, was going under an alleged assumed name and was said to have married a widow in the community under the assumed name.

The result of the local option election in Dallas has caused a good deal of talk among some of the darkies. Several from the country heard yesterday for the first time that Dallas had gone dry.

R. L. Lattimore, attorney for Perry Humphrey, who killed his cousin, N. B. (Pole) Humphrey, at Clarksville, sued out a writ of habeas corpus for his client, which was presented before Judge Dohoney yesterday and the defendant's bail bond was reduced to \$3,000.

## At the Big Store

The willing hand of helpfulness—sincere service. This has a much broader meaning than to pleasantly wait upon its patrons in the store. It means—not to sell you the most expensive furniture, but to help you select the outfit, suit or individual piece that best fits your personal needs. To give you the benefit of our low-price buying—meaning that through our large purchasing power we buy much cheaper than any other store possibly can.

That our old-fashioned charge account plan was instituted for your benefit—for you to take advantage of and to enjoy. It means that our service knows no limit. We want to please and satisfy.

And finally, it means that all sentiment has not been squeezed out of business here.

No trouble to show you.

"Lord French, commander of the home defenses, reports that the latest information indicates that about twenty enemy machines participated in last night's raid. Bombs were dropped in a number of places in Kent, Essex and Suffolk, but no casualties and only insignificant damage has been reported up to the present. Repeated attacks were made on London, but in no case did the raiders penetrate the outer defenses.

"One enemy airplane is reported to have been shot down in the Thames estuary and a second one off the coast."

### NEGRO HAD FINE GUN AND NOW IN JAIL

Last night while Constable Ed Bell and his deputy, Odus Parks, were in the negro section at Guest's Corner, in the shadows, Jim Collulla, a negro man who later stated he had been picking cotton and had just moved to town, passed by them and without seeing them he drew a pistol and examined it to see if the weapon was in working order. It was a fine Colt gun, .38 in a 45 frame, pearl handled and silver plated. It shined in the moonlight and the two officers stepped out and called to the negro to stop. Instead of obeying he took to his heels with them in pursuit. He dropped the pistol as he ran but the officers kept after him and caught him before he had gone far. They returned and picked up the pistol and brought the negro to jail. Mr. Bell is of the opinion that the gun was not in possession of its lawful owner when he first saw it.

### RUSSIAN DEMOCRATIC CONGRESS IN SESSION

Petrograd, Sept. 29.—The Maximillist and the Socialist democrats, at yesterday's session of the Democratic congress, showed favor of the coalition of the Cabinet and to include Bourgeois, but they voted against the inclusion of the constitutional democrats' revolutionary. The Socialists voted as favoring the coalition, but excluded the constitutional democrats.

## DAMAGE FROM GULF STORM MINIMIZED

Mobile, Ala., Sept. 29.—Fire in the wholesale district here early today destroyed two large mercantile establishments and the building occupied by the Mobile Chamber of Commerce and the Cotton Exchange, causing a loss of \$450,000, covered by insurance.

Dothan, Ala., Sept. 29.—Reports from Crestview, a few miles west of Portacola, state five persons were killed and several injured by the West Indian hurricane which struck there yesterday.

Mobile, Ala., Sept. 29.—Due to the fact that warnings of an approaching hurricane had been spread broadcast over Mobile and surrounding territory, this section awoke to find that it had passed through a 96-mile northeast gale with minimum damage. The business sections and residential section of the city are littered with sections of roofs, galleries, signs, trees and other debris, but despite the fact that a 90-mile gale had hammered and tugged at Mobile for the better portion of ten hours, not a life was lost, and damage probably will not amount to more than \$25,000.

The loss along the water front was very light.

Taking advantage of the first warning of the approaching hurricane shipping sought a safe harbor behind Twelve Mile Island. There every manner of craft from big pile drivers, barges and bay steamers down to the tiniest motor boats rode through to safety, swinging from the end of mammoth hawsers made fast to large trees on the river banks. So many craft were tied up to the island that it resembled a large port. The river was clear of all manner of floating craft long before the first indications of the gale struck Mobile. At the river front this morning it was stated that not a boat had been lost.

The vessels that had weathered the storm behind Twelve Mile Island this morning began returning to the Mobile docks and within a short time it is believed that the river front will have returned to normal.

### Heavy Damage in Interior.

Montgomery, Ala., Sept. 29.—The center of the tropical hurricane struck Pensacola, Fla., early last night, passing inland in a northeasterly direction, doing great damage to crops and buildings in West Florida and South and Central Alabama, according to meager reports received here today.

Telegraph and telephone wires went down early in the night and communication has been re-established with only a few points south of here.

Brewton, Evergreen, Andalusia, Florala, Dothan, Troy and Ozark, Ala., all report heavy damage by wind and rain, hundreds of small buildings gin houses, cottonseed oil mills and other establishments of wooden material and many cabins and barns were laid flat. The wind began blowing in Montgomery shortly after nightfall last night, at which time over five inches of rain had fallen. Gusts of rain accompanied the wind, which raged all night, the maximum here being between 55 and 60 miles an hour. Trees and small buildings were blown down all over the city. So far no casualties have been reported. Street car traffic to some of the suburbs is interrupted. No trains have moved south over the Louisville & Nashville railroad since Friday morning, over 500 passengers for points south being marooned here.

**INCOME OVER \$1000****PAY INCOME TAX**

Washington, Sept. 29.—Final agreement on the \$2,700,000,000 War Tax bill was reached late today by the Senate and House conferees and the report will be re-presented to the House Monday. The levies of approximately one billion dollars on war excess profits and \$842,000,000 on incomes was left unchanged but a new system for calculating the excess profits was adopted.

The conference report provides for a graduated tax from 12 to 60 per cent on the profits of corporations, partnerships and individuals, levied on the basis of invested capital, compared with invested capital of the

## News of a Becoming Uniform; Fall Fabrics

New York, Sept. 29.—Never has there been a time when the fashions have seemed so practical. The narrow skirts do away with any extravagant use of material, for the straight silhouette reigns supreme. Of course there is drapery, usually on the side, a little below the hip, but even this does not detract from the length of the line from shoulder to hem.

There is no excuse whatever for any woman to dress unbecomingly. One does not now hear the old complaint, "Oh, but the styles do not become me. What am I to do?" The styles do become us, each and every one, for there has never been a

The Food Conservation Dress Apron time when the individuality of women can be so clearly studied and expressed.

Just a Whisper or Two There is one big house in New York that predicts we will all be

wearing bustles by New Year's! They point out that the drapery is slowly but surely retreating toward the back, and that pockets are being placed further back than they have been. The Chinese and Japanese style (kimono sleeve) is also being advanced very strongly.

### The Food Conservation Uniform

Have you signed the Food Conservation Pledge? If not, do learn about it at once, for it is one of the ways the patriotic woman can really help her country. There is a fascinating dress apron which you can wear after you have signed it. The illustration here shows you just how very practical (and becoming) it really is. This is the official uniform, and is being worn all over the country. The dress itself is made of blue chambray or plain blue gingham, with collar, cuffs and cap of white pique. It is extremely simple of construction, and is also very easy to get into. There is only one button necessary. The dress closes on either side, the right over the left, or the left over the right. The strap or belt is passed through a bound buttonhole, around the figure, and is fastened on the opposite side. The big pockets are conveniently placed, and altogether it is a costume designed for the efficient woman.

### The Vogue of Gingham Continued in Fall Fabrics

There never has been a material so popular as gingham! The history of the gingham craze, as it has been called, is very interesting. It was launched by American designers without the assent of Paris. Palm Beach first put its seal on it, and since then, women have eagerly demanded it. Paris took it up, and the gingham dress of 1917 was the smartest affair imaginable. Women who had long relegated it to the nursery and the house dress, wore it at the beach, the country club, and on the street in the big cities. Now that cool days are coming, the designers are reluctantly laying it on one side, to be taken out next spring, however. There are quaint silks and chiffon taftetas to take its place, with the gingham pattern carefully carried

out. I saw a most attractive dress on the avenue the other day, of blue-

The Fetching French Apron and white-check taffeta, with large hip pockets and a surprise waist.

Lavish Use of Fur Fur promises to be used this year as much or more than it was last. All the windows are full of full suits

and coats with bands, huge collars, and even pockets and belts of fur. One extravagant dress had the skirt as far up as the hip, the collar and cuffs, made of seal, with the rest of the costume of Georgette crepe!

### The French Apron

Isn't it astonishing the way the charm of the apron, aside from its usefulness, has swept over the country? Of course, women are more interested in things that require an apron than they have been since our grandmother's day. There is something quaint about them, and they are playing a most important part in the wardrobe of the woman who keeps up with the times.

Here is an illustration of the new French apron. It is made on the lines of those aprons worn by the French Red Cross nurses, and is so simple an affair one wonders why we have not been wearing it for all these many years. Completely covering the skirt, there is a bib, which is held up with suspenders or is buttoned through to the dress beneath.

pageantry, including mounted bands, camel and team, ornate cages, novelty wagons, floats, three calliopes, clowns, elephants and two hundred ponies.

Perhaps you remember that "Mighty Casey" at the bat had "Babe" twice each day differs from Casey in that she wallows the pill for the most remarkable home run ever seen on any diamond. "Babe" slides from third to the home sack, and "Tinto," the catcher, fails to tag her. All this in spite of the fact that the opposing elephantine battery had framed up on the heaviest hitter on the heaviest hitting team in the world.

## Lowest cost per pound of real roughage

much each pound of roughage in this form is costing you, you must divide the price per ton by 1500—not by 2000.

## BUCKEYE HULLS

cost exactly what you pay for them. Every pound is all roughage—no useless lint. To really know the difference in cost between old style hulls and Buckeye Hulls you must know the cost per pound of real roughage.

Even though Buckeye Hulls do sell at a much lower price than old style hulls, you can't realize how much less they are costing you until you consider how much more real roughage a ton contains.

### Other Advantages

Buckeye Hulls go farther. Sacked—easy to handle. They allow better assimilation of other food. Take half as much space in the barn. No trash or dust.

**Mr. Dan Wolf, Hammond Bldg. & Mfg. Co., Hammond, La., says:** "I am feeding Buckeye Hulls to my milch cows and find them a satisfactory filler when mixed with cottonseed meal and other concentrates. At the present price of feed stuff, Buckeye Hulls are the cheapest roughage on the market."

To secure the best results and to develop the ensilage color, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

### Book of Mixed Feeds Free

## MOTIONS FOR NEW TRIALS ARE DENIED A CITIZEN OF PETTY DIES AT INFIRMARY

T. J. Record, the well known banker of Paris, who has recently returned from a trip to New York, and who met Sorg Scates while there, had the following to say yesterday in regard to his interview with Mr. Scates, and about the cotton situation:

"I saw Sorg Scates in New York a few days ago. He thinks that cotton will go to thirty cents per pound. He says, however, there are dealers in cotton whose judgment is entitled to high regard who think that the present price of cotton is too high, even based upon a crop of twelve million bales.

"The estimate on the present crop, however, is in excess of thirteen million bales. They base their opinion on the fact that the shipment of cotton is so restricted that the price must inevitably come down. We know that no man's judgment on the price of cotton is infallible, but whether the present price is too high or whether it will go higher, we do know one thing, and that is that the usual facilities for shipping cotton are greatly hampered and will inevitably affect the prices unfavorably.

"Of all times it now seems most important that the crop should be marketed slowly. A liberal portion of the crop should be held in the country where it is produced and in the hands of producers. The farmer should be his own distributing agent instead of the cotton merchant. He should have cotton to sell from September till June, and should be ready to deliver it to the buyer when the manufacturer is ready to spin it. The man who begins to sell his cotton early in the season and continues to sell it throughout the season is sure to get the average price and that is all that anyone can expect.

"The practice, however, of marketing cotton slowly if generally adopted by the farmer, will sustain the price and under this plan the average price would certainly be higher than the average price when the staple is rushed upon the market and disposed of in the course of three or four months.

"I am sure Sorg's friends will be interested to know that he has bought a beautiful farm of two hundred acres in the state of New Jersey. It is forty miles from his New York office. During the summer he lives on the farm and comes in to his office every day. He is in his office from 9 o'clock in the morning until 4 in the afternoon. During the winter he lives in the city and goes to his farm once a week.

"He has a competent and satisfactory manager in charge of the farm. It is well stocked with fine cattle and horses, and he has more than one thousand chickens. He enjoys better health than he has for twenty years, which he attributes to the time he spends in the country and to the interest he is taking in the farm."

### Paris Runaway Boys.

Mr. Riddle, of the country south-east of town, found three small boys near his home Tuesday night. The boys were runaways, and their ages ranged from 10 to 12 years old. When found by Mr. Riddle the boys were utterly exhausted and had sat down on the side of the road to spend the night. They were furnished bedding for the night and were soon in the land of pleasant dreams. Next morning Mr. Riddle brought the boys to town and found that Chief of Police Ed Whitley was already looking for them, having been asked to do so by their parents, who live in Paris. The youngsters were sent home on the morning train.—Honey Grove Signal.

The Sixty-Second district court adjourned for the term at 1 o'clock yesterday afternoon, after a couple of motions had been presented by the attorneys and acted on. A motion for new trial in the case of B. L. Billingsley et al vs Texas Midland Railroad, which is known as one of the fire insurance suits, was presented by the plaintiff and was overruled, after which the plaintiff gave notice of appeal and was granted sixty days within which to prepare a bill of exceptions and statement of facts. Similar action was taken in the case of the City of Paris vs McKnight & Freeland et al, in which judgment had been rendered for the plaintiff.

## WERE JARRED BY THE DISCHARGE OF A GUN

S. H. Kennemer, a well known farmer below Bladstown, and his son Barney, who has just returned from Kansas City, where he has been attending an automobile school, had a narrow escape Friday from being seriously wounded. The young man had his shotgun out trying to shoot a dog that had been prowling around the place sucking eggs. He snapped one barrel at it, but the cartridge failed to fire. He took it out and put in a fresh shell but the dog disappeared before he could use it. Later while assisting to unload some corn from a wagon he forgot about the gun being loaded and put it in the bed. The gun slipped off the corn and struck against something which caused it to discharge. It was fired at such close range that the concussion knocked the father down and blew his son's hat off. The load passed between the two and the father's neck was powder-burned.

## A BAD INDIAN KILLED BY ANTLERS OFFICERS

Clifton Push, an alleged bad Indian, was killed a few nights ago by Deputy Sheriff E. T. Stone of Antlers and other officers of the county. Report of the killing states that Monday night, September 17th, Push killed his brother-in-law, Ernest Whait, a harmless Indian, by shooting him several times and then stabbing him with a knife in the shoulder. He then threw Whait's body down in the cellar at the Whait home and compelled Mrs. Whait to accompany him home. At the time Push was killed, one week after his horrible crime had been committed, he was living with his sister-in-law in one room and his wife in another. Push's body was riddled with bullets by the officers and posse. Mrs. Push received a flesh wound in the shoulder accidentally.

Mrs. Push and Mrs. Whait are sisters.

E. L. Dohoney, Jr.,  
Principal.

David McDowell, a well known farmer and respected citizen of Petty, who was seventy years old, died at 4 o'clock yesterday afternoon at St. Joseph's Infirmary. He was stricken with paralysis at his home two weeks ago and was brought to the infirmary about a week before his death. The deceased was born in Spartanburg, S. C., and came to Lamar county twenty years ago, locating near High. He married Miss Mary McClure, a sister of Messrs Sam, Roland and Earl McClure, who died several years ago. He leaves one daughter, Miss Maggie McClure, and three sons, Joe, Fred and Edgar McClure, all of Petty. He and his lone daughter and youngest son were making their home together at the time of his death. He was an uncle of Mrs. A. M. Vanlandingham of Paris. The funeral service will be held at 2 o'clock this afternoon at the Methodist church at Pleasant Hill and will be conducted by Rev. J. H. Ezell of Windom.

## DEATH RESULTS FROM NUMBER OF HEMORRHAGES

Chas. T. Pyeatt, aged forty-five years, died at his home No. 148 North Twenty-Seventh street at 9 o'clock yesterday morning after a very brief illness, although he had been in poor health for some time. Shortly after reaching the grocery store of Hiram T. Hicks on Bonham street where he was employed Friday morning, he was attacked with hemorrhages and had a succession of them before he could be taken home. During the day he had eight more attacks. He rested well during the night and felt much better at 4 o'clock yesterday morning, but shortly afterward had two other hemorrhages and never rallied.

He was born in Anson, Jones county, and came to Paris about thirteen years ago to clerk for Fene & Keel, grocers on Bonham street, he having married Miss Alice Keel, a daughter of J. F. Keel, one of the members of the firm. He remained with them until they retired from business and he remained in the employ of their successors. He is survived by his wife and two daughters, fifteen and twelve years old. He also leaves two brothers, who live in Jones county. The funeral service will be held at 9:30 o'clock this morning at the family residence and will be conducted by Rev. B. E. Wallace. The burial will be at Evergreen cemetery.

# Fall Fashion Promenade

You Are Invited to Attend the Fall Fashion Promenade On the Second Floor of Our Store

## Wednesday Afternoon October 3rd at 4 o'Clock

**A**N Interesting Exposition of the newest and most favored styles in Women's and Misses' coats, suits, dresses, waists, skirts, Millinery, underwear, corsets, for fall and winter wear—a showing that will command attention and deserve the admiration of every woman, including as it does every worthy style and fabric of the new season. The display will include and feature everything from the most intimate undergarment to the hat and coat that complete the out-door costume and other departments will supply the accessories of shoes, hose, bags, handkerchiefs, neckwear, jeweled ornaments and other details of perfect dressing.

### THE SUITS

Styles are largely tailor-made with varying jacket lengths—high, normal and elongated waist-lines are noticeable—belted effects, butterfly and straight sleeve motifs—collars in great variety. Skirts on simple lines giving the narrow silhouette. Favored colors are rich browns, navy blue, greens, khaki and tans. Fur fabrics, plush, velvet, broadcloth and braids are the trimming tendencies.

### THE COATS

The new coats practically all cover the entire dress to the skirt hem, slightly less full than last year but with ample lower width to give a graceful flare. A few extreme models are narrow and straight-line. Sleeves are roomy and belts and large collars are favored. The best colors are here in velour, cheviot, broadcloth and English and Scotch mixtures with a variety of all other accepted materials.

### THE DRESSES

Only the choicest of silk, silk combinations and wool dresses are in this display. The styles, materials and trimming effects are varied beyond description. It is a most interesting showing, including copies of the latest creations—adaptations from the hands of master designers—those who know how to accomplish every requirement of dress. They will be a feature of this Fashion Promenade.

### THE SKIRTS

The tailor-made predominates here as in the suits, but some novel skirts silk and velvet are shown. While the simpler models are favored there are also dressy styles, showing drapery at the sides or a very long tunic. Cluster pleats are also very good and belts and pockets are a noticeable feature. Average length is just above the shoetop and width about two yards not interfering with walking.

### THE SHOES

Every woman knows the shoe says the last word on whether her dress is correct and that the woman with carelessly shod feet is secretly laughed at. If the shoes are selected and fitted here there will be no criticism. High and low cut styles in all leathers for all occasions are here.

## Millinery Exhibit

Attempted description of the Millinery would be a waste of words. We shall be content to say that the millinery for this season is entirely different from that of the last year. In crowns alone ideas are most varied—all sorts of puffs, indentations, ridges, shirrings and drapes are evolved. The trimmings are equally varied and all are beautiful with a kaleidoscopic combination of colors that is essentially pleasing.

And yet, with it all, there is something about a Crook-Record hat that is not achieved by the ordinary millinery—a distinctiveness that impresses not only the wearer but everyone who sees her. And this is not attained by freakish styles but rather by an absolute adherence to the fixed styles so true and yet so original that it defies copying or imitating.

We are confident that the millinery will receive a large measure of praise in the Promenade and that it will deserve every word of commendation it gets.

## Crook-Record Co.

GREEN TRADING STAMPS WITH CASH SALES

**T**HAT these desirable things may be properly shown we have enlisted the aid of some of Paris' prettiest children, most beautiful girls and handsome women who will wear them in this Promenade in order that they may be seen exactly as they will appear when donned by the purchasers. The Promenade will begin at 4 o'clock, promptly, and the variety is so great that there will be but one showing of each. Therefore, in order to see this Promenade in full prompt attendance will be necessary.

Musical selections on the Edison will be given through the courtesy of the Rodgers-Wade Furniture Co., licensed distributors.

### THE WAISTS

In the waists for fall the white and flesh as well as darker tones to match a suit are fashion's dictates. Sheer silken crepes, lace, net, chiffon and fine cotton voile with trimmings of embroidery or stitching and beading are entirely proper while choker effects are in vogue, frills and jabot effects being pronounced. The variety permits everyone to choose exactly the waist wanted for any occasion.

### PARTY FROCKS

The new party dresses, dancing frocks and evening robes are a joy to behold—filmy and voluminous, airy and shimmery in their brocades, satins and chiffons—dresses that fairly urge you to wear them to a social function where they would be the premier costumes. Light bright pastel shades predominate and are attractive in every detail of color and trimming to harmonize in every essential respect.

### THE CORSETS

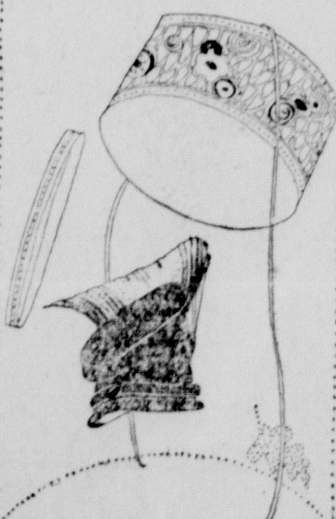

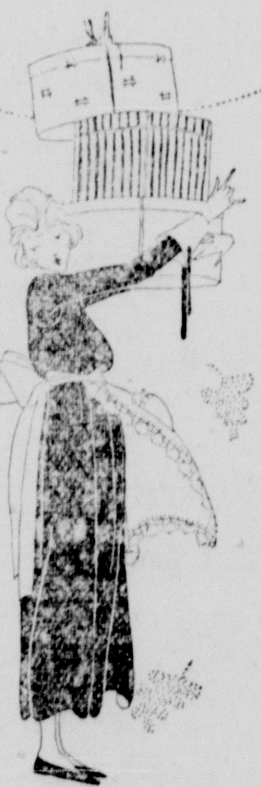

Because no costume, even the simplest is at its best without the corset being exactly correct under it, we are including in this affair a showing and demonstration of corsets for every need. Not alone will there be shown women's corsets but those for misses and little girls are to have their place. Front and back lace—and a graduate corsetiere to fit exactly every figure that comes to her.

### THE CHILDREN

The little folks are not forgotten or slighted in this Promenade for their every need will be shown including dresses, coats, hats and other garments. While the styles follow in general the lines of the grown-ups' garments there is a juvenile touch to everything for the children and we show the latest special fashions for them in a greater degree than ever heretofore was possible or necessary.

### THE ACCESSORIES

Latest novelties in hand bags, purses, handkerchiefs, neckwear, jeweled ornaments and the hundred-and-one little things for the perfect toilet are here and may be seen in the style promenade or on first floor.

# YOU AND I HELP MAKE OR MAR OUR COMMUNITY

---

It has been said that "a community is no better than the men and women who live in it." How true this is. If YOU or I fail to do OUR part in the work of building up our city, our city suffers.

A city is similar to an individual—the wrong medicine will KILL while the proper treatment will CURE.

Take, for instance, the habit of trading out-of-town. Nothing will so quickly kill the business interest of one's home town.

But, let each individual apply the remedy of "trade-at-home," and you will see that community thrive and prosper like a sick man who grows strong under the proper treatment.

The practice of buying away from home is worse than a curse to the people of any community—it will spread and grow like a contagious disease unless checked by the individual efforts of every citizen.

REMEMBER THIS—you have your duty to perform toward your home town, just the same as your neighbor has.

YOUR individual efforts will go a long ways toward upbuilding or retarding the growth of Paris.

### Club Directory

Monday, October the 1st: The Lamar Avenue Missionary Society at the church for a business session.

Tuesday the 2nd: The Lotus Club with Mrs. Neville. Subject: Irvine's "The Magaimous Lover."

Wednesday the 3rd: The Etude Club at the Lamar Avenue Methodist church, for a business session. 3:30.

The Lamar Study Club with Mrs. Charles Park. Subject: Summary of last two years' work.

The Needlecraft Club with Mrs. Canville Matthews.

Thursday the 4th: The Pierian Club with Miss Madys Griffiths.

Friday the 5th: The U. D. C. with Mrs. Neville Brooks.

The Kaid Klan with Mrs. Musselman.

Saturday the 6th: The English Literature Club with Mrs. W. F. Moore.

On Wednesday afternoon, Master Frank Bailey, Jr., and small Miss Anne Griffith celebrated their second birthdays with a charming lawn party at the home of Mrs. M. E. Griffith on Lamar avenue. The twenty-five guests, instead of bringing gifts, were asked to make a small donation to the Red Cross, which in all, amounted to ten dollars. Indeed, it might well be termed a "Red Cross party," for we see American flags, with the Red Cross emblem on the reverse, were stuck in the ice cream cones served, and each child was given a paper cap with a Red Cross painted upon it, as a favor. A beautiful pyramid birthday cake, iced in white with pink roses and pink candles, was cut. Master Joe Wunsch, Jr., finding the small Miss Dorothy Dalton the most beautiful, Master James Williams the most beautiful, we Miss Mary Katherine Glass the most beautiful, and little Miss Doris Williams the thimble.

An unusually delightful week of entertainment has been the progress of a houseparty given by Misses Eva Bonham, Katherine Williams, Katherine Moore, Hazel Jones, Genia Stevens and Mary Upton. Monday afternoon, a theatre party was given, followed in the evening by a dance and a slumber party at Moore's. Tuesday was spent at the Country Club, the guests returning at four for lunch with Miss Bonham. Dinner was taken with Miss Williams, preceding a dance on the lawn of the garden of the Belford Apartments, the young ladies spending the night with Miss Williams. Wednesday morning the guests motored to Arkville, where, with Miss Bonham as hostess, lunch and dinner were taken, and the Clarksville Fair at a theatre attended. They returned that evening and a slumber party was held at Miss Jones'. The next afternoon, a theatre party was attended, and at dinner, Miss Upton was hostess. The houseparty also continued the evening and night at her residence. Friday afternoon another theatre party was given, followed by dance in the evening at the home of Thomas Henley, Jr., on Bonham street. The following young gentlemen were entertained by the houseparty during the week: Jack Perry, Dewey Lawrence, Thomas Henley, Thomas Bullington, Henry Bullock and William Gee.

The Pierian Club, at a business meeting on Friday afternoon last, voted to dispense with the study of literature until a more favorable time, and to take up knitting instead, as a more profitable and patriotic occupation. Their meetings will be held on alternate Thursdays, as usual. It is a laudable and noteworthy fact that several of the social and literary clubs of Paris have also given up their work to help our nation in one way or another, some, as the Pierian Club, by knitting, and by doing Red Cross work, and a pleasure to see this spirit in the women of the city.

The Lamar Study Club met in a session at the home of Mrs. B.

Jordan Tuesday afternoon, at which time the members received the club books for the incoming year. This is the third year the club has devoted to the study of English history and literature. After the business session, the president, Mrs. Jordan, with a few well-chosen words, and the best wishes for her success, presented the gavel to Mrs. W. E. Knight, the president for the year 1917-18. Mrs. Gatewood of Hugo, Okla., (a former member) was a club guest. At the social period, an ice course was served.—Reported.

Mr. and Mrs. Roy Guiley of North West street celebrated their first anniversary of their wedding, September 23rd. The parents of both and a number of friends were present. A splendid dinner was served, and all spent an enjoyable day. Quite a number of nice presents were presented to the happy couple.—Reported.

### Personal

Rev. Dr. and Mrs. Black returned Friday from Marshalltown, Iowa.

Mrs. J. H. Hancock, Miss Frances Hancock and Miss Nell Bankhead left Thursday for Washington, D. C.

The Impeachment of Gov. Ferguson. Observing what it conceived to be the proprieties of the occasion, The News, pending the verdict of the Senate in the impeachment proceedings against Governor Ferguson expressed no opinion, nor has it attempted to probe popular sentiment on the momentous issues they involved. But with the termination of those proceedings and the pronouncement of the judgment by the Senate, terminated all obligations of the press to the principle which guarantees to every defendant, however humble or exalted, a trial as fair and impartial in fact as in theory.

It was seriously debated whether the proceeding as provided for by the constitution was of a civil or criminal nature of a quasi of each. That was wholly immaterial to the ascertainment of the truth of the charges preferred. The Governor could be impeached under the constitution, and divested of office and civil rights if convicted of acts that constituted either high crimes or misdemeanors, whether proved under the flexible rules of the civil code or the more technical ones of the penal code. No candid, conscientious man would invoke the latter—yet Governor Ferguson did, from first to last. It cannot be denied that, in each of the twenty-one counts preferred by the House he was charged with acts which, under the penal code of this state, constituted a high crime or a misdemeanor.

and was found guilty on ten of those counts.

The News has no partisan rancor to gratify in this review of the case—no factional recriminations to indulge. In common with every average citizen it deprecates the episode as an emergent necessity imposed upon the Legislature by the Governor himself, and, more like the average citizen it sorrows for, rather than rejoices over the Governors plight—just as the average citizen grieves for any one in trouble, even the criminal. But The News does rejoice over the fact that, in the vindication of the good fame of Texas the membership of the Texas Senate had the manhood to discard friendship, sympathy and even pity.

## JUNIOR RED CROSS APPROVED BY PRES.

Washington, Sept. 28.—Organization of the Junior Red Cross among public school children throughout the United States has been warmly approved by President Wilson in a letter to Dr. H. N. MacCracken, president of Vassar College, in charge of the organization of the new Junior Membership Bureau.

The President's message, which is to be read to all the twenty-two million school children being enlisted in the movement, is as follows:

"My dear Mr. MacCracken:

"I am very much interested to learn that you have taken up the work of organizing a junior membership of the Red Cross for work among the school children, and I write to express my very deep interest in the movement.

"If you have the opportunity will you not bid the young people, whom you are assembling in this organization, a very warm welcome from me and give them a message of the heartiest good cheer as they enroll themselves among the servants of the nation and of the people everywhere who need help and comfort and encouragement?

"I think they will all look back upon this work they are undertaking as a happy circumstance of their school days.

Very sincerely yours,  
"WOODROW WILSON."

## You Are No Better Than Your Eyes

Eyesight is the most important function of the human body, which accident insurance companies value as highly as life itself. If you are deficient in eye sight—seeing power, you are incapable of your best efforts and therefore below par according to your own standards.

Vision, so vital to your own good and happiness, can be brought up to normal by the use of properly fitted glasses. If your eyes bother you, have them fitted now. See us. We know how.

## VANDERLIP WORKING NOW FOR \$1 A YEAR

Washington, Sept. 25.—Frank A. Vanderlip, president of the National City Bank, New York, largest institution of its kind in the United States, has severed his business connections to work for the United States government at \$1 a year.

Mr. Vanderlip, directing head of the American International Corporation and the International Mercantile Marine, many times a millionaire, is to be chairman of the War Savings Certificates Committee organized by the Treasury Department to conduct a campaign for extensive saving throughout the war.

Before he became a leading figure in Wall Street Mr. Vanderlip was an Assistant Secretary of the Treasury. He is working on a ten-hour basis and has enlisted for the period of the war.

## SIXTEEN MODERN CITIES BUILT IN THREE MONTHS

Washington, Sept. 27.—Maj. W. A. Starrett, chief adviser in the construction of the sixteen great cantonments for the training of the national army, has explained the enormity of the work. To give some

idea of the task just being completed, he said:

"We have spent \$150,000,000 in three months, the time of building. In that time we virtually have built sixteen modern cities. We provided 600 cubic feet of space for each man in the camps—and there are 687,000 of those men. European cantonments allow only 360 cubic feet to the man.

"There are 2,000 buildings in each cantonment, or 32,000 in all. They are so built for fire protection that only one building can burn at a time.

"We saved \$12,000,000 on the camps by building them two stories instead of one.

"In addition to the gigantic cantonment construction work there is still under our direction \$350,000,000 worth more of building in progress or contemplation. We used 4,000,000,000 feet of lumber from 190 mills throughout the country. We built 4,000 miles of finished road surface. Roads approaching the camps will add another few hundred miles.

"We used 2,000 miles of piping for the water supply systems, and 2,000 miles of drainage and sewage pipes.

"It took a carload of tacks to put the tar paper on the roofs. Railroads delivered from fifty to 150 carloads of materials to each camp every day. There were about 8,000 carloads of materials in all.

"We took care of 8,000 to 10,000 workmen at each camp every day. Some camps had a weekly payroll of

\$150,000. The government had had about 150 representatives in camp. On one job the contractors held a foreman's meeting every morning, from 300 to 500 foremen gathering to discuss plans.

## WILSON HEARS OF TEXAS WIDOW WHO GIVES 9 TO WAR

New York, Sept. 25.—The patriotism of a Texas widow, whose nine children are helping in some way to win the war, was related today to President Wilson through the National Security League.

The widow is Mrs. Charles Montague, of Bandera, Texas. Her six sons are in the army, with the exception of the youngest, who will be called in the next draft. Her three daughters are members of the Red

Cross. Her husband was a Civil War veteran.
